### Scope of supply:

1x metal bracket without screws  
2x Hexagon screw 6x16mm  
4x Washer  
2x Nut M6 self-locking

Fig.1

The metal holder is attached to the 3 existing screw connections on the belt guard. The existing fastening screws are used.

Fig.2

Once the metal holder has been fitted to the swing arm, position the bag on the on the bracket (e.g. with double-sided adhesive tape). Sit on the motorbike and check the clearance by compressing the shock absorbers.

**Before you drill the necessary holes in the back of the saddlebag, it is very important to leave enough space between the shock absorber and the primary drive so that the shock absorbers/swingarms can compress.**
